LETTER OF RECOMMENDATION

It gives me contentment to write this letter to recommend Shivam Thakur for the Masters in Engineering Management program at your esteemed university. I have been associated with him in my capacity as his professor for a tenure of one year, during which I taught him the course of 'Entrepreneurship Development Management'. I can vouch for his ambitious mindset and hardworking attributes which give him an edge to succeed in his field of choice.

Throughout the course, I have observed Shivam be keenly interested in many ventures undertaken by his predecessors and interacting with them regarding their projects and their experience. He had a keen attraction to the subject and have always thought of ways to carry out something distinctive to solve social complications related to pollution. In an interaction with him, he shared future aspirations, to attempt to mitigate the problems by making changes in upcoming technical products. Not just this, he has also shared his keen interest in electric vehicle technology. With immense pleasure, I have motivated him to follow his passion and noble ideas, and have always seen him as an individual with great potential.

Shivam has been a part of MAHA-TPO, 2019; an entrepreneurship summit, organised by Pillai College of Engineering, held to bridge the gap between various investors and budding ventures, where he was an essential part of the marketing and event management team.

As an individual, Shivam has shown uniform consistency in his assignments and has always been an active participant in many group discussions, during which his excellent communication skills have helped him put his ideas across. Shivam comes across as a composed yet firm individual with a great deal of sincerity. His courteous and respectful demeanor always impresses and makes him stand out among others. Furthermore, he has always had deep respect from his peers and has a contributing nature.

As a professor, I have great personal and professional respect for him and I am confident that Shivam will bring unique enthusiasm, passion, and energetic creativity to your class and university as a whole. Therefore, he has my highest recommendation for admission into his desired course at your university.

If you have any questions regarding this recommendation, please feel free to contact me for I will gladly extend my help in the best possible manner.

Sincerely,

Dr. Sandeep M. Joshi
Professor
Mechanical Engineering Department
